The d-Color MF3302, A4 laser multifunctional colour printer, prints at 33 ppm in mono and colour and is designed to greatly improve levels of productivity and print quality - indispensable requirements for today's busy office.

The 7" multi-touch colour screen provides an easy to use interface; while the **automatic single-pass duplex scanner** speeds up the simple digitising of paper documents. With security continuing to be a major concern in the modern business world, his model offers a very important option, called **Bitdefender™**. This is an antivirus scanning device offering real-time data scanning during transmission and reception, which, when combined with **reduced operating costs**, through **long life consumables** and **reductions in power consumption**, makes the d-Color MF3302 an ideal safeguard for modern work teams.
